ABOUT ME

I am a passionate and results-driven Full-Stack Developer pursuing a Bachelor of Computer Applications (BCA). With hands-on experience in React.js, Node.js, Express.js, and MongoDB, I have built and contributed to various web applications, including e-commerce platforms and job portals. I am eager to apply my problem-solving abilities, clean coding practices, and collaborative mindset to build scalable and user-friendly applications.

EDUCATION

2022 - 2025	Bachelor of Computer Applications from Maharishi Arvind University
2021 - 2022	Senior Secondary Education from Archana Senior Secondary School
2019 - 2020	Secondary education from Kendriya Vidyalaya Sangathan

PROJECTS EXPERIENCE

1. Job Portal (MERN Stack)

- Developed a full-stack job portal with authentication, job postings, resume uploads, and application tracking.
- Implemented user roles: Admin, Employer, and Job Seeker for a structured workflow.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Multer

2. E-commerce Website (React.js & Tailwind CSS)

- Built a responsive e-commerce platform with product listings, cart functionality, and checkout process.
- Integrated APIs for product management and implemented a user-friendly UI.
- Tech Stack: React.js, Tailwind CSS, Firebase (for authentication)

3. Rate Your Instructor

- Developed a platform for students to rate and review instructors based on various criteria.
- Implemented a user-friendly UI with search and filtering functionalities to find professors based on schools.
- Integrated authentication and token-based access control for secure user interactions.
- Tech Stack: React.js, Bootstrap, Node.js, Express.js, MongoDB, JWT

TECHNICAL SKILLS

Frontend Development

- React.js
- Tailwind CSS & Bootstrap
- JavaScript (ES6+)

Backend Development

- Node.js & Express.js
- Authentication & Security (JWT, Firebase)
- RESTful APIs

Database & Other Tools

- MongoDB
- Version Control (Git & GitHub)
- Multer (File Uploads)
